

# Build4Scale Manufacturing Pilot Training Program for Clean Tech Entrepreneurs

August 1<sup>st</sup>, 2017

Rutgers EcoComplex “Clean Energy Innovation Center”  
Bordentown, New Jersey

- Rutgers Ecolignite, a Clean Energy Business Incubator and Accelerator Program, is offering free training for Clean Tech Entrepreneurs.
- Lawrence Livermore National Laboratory and Texas A&M University are collaborating to provide “Clean Tech Entrepreneurs” with the training and tools they need to identify and address manufacturing challenges early in the development process.
- Training is part of the USDOE’s Office of Energy Efficiency and Renewable Energy’s Build4Scale Program.
