   Wiley Rhodes, CEO, The Newpoint Companies
   Bob Powell, CEO, Brightmark Energy
   Kathleen Fiehrer, Global Supply Chain Management, Intel

Conversion of waste into value added products may involves various technologies because of the heterogeneous nature of waste. Technologies to feed waste components back into the Circular Carbon Economy may involve following technologies:

- Food waste & organic waste- Anaerobic Digestion & Composting
- Plastic waste, Tire waste and Wood waste- Pyrolysis, Gasification, Solvolysis
- Gas Clean up technologies for Biogas for Energy & for Pipeline Quality Biogas
- Catalytic Conversion Technologies for Syngas to Liquid Fuels and Chemicals
11:55 – 1:00 LUNCH

1:00- 1:50: A Panel of Powerful Women in Sustainability – “Women are not only participating they are leading the charge in Corporate America”
