The Jerome Goldstein Scholarship for EcoEntrepreneurs will support student research interns at the EcoComplex - Rutgers University’s Clean Energy Innovation and Environmental Research & Extension Center, during Summer 2015.

The Goldstein Scholarship was established to support student interns working on projects that integrate “Sustainability”, “Innovative Clean Energy Systems”, “Waste Management Technologies”, “Life Cycle Analysis (LCA)”, “Energy-Water-Food Nexus” concepts and/or Environmentally-Based Enterprise development.

Scholarships will be awarded to graduate and undergraduate students based on academic merit. The full-time internships will run from June through August 2015, and be based at the EcoComplex in Bordentown, NJ. The internships will be designed such that the students will gain valuable scientific, technical and entrepreneurial experience in one or more of the areas mentioned above.

Interested students must apply by March 20, 2015. Applications for the Scholarship are available on the EcoComplex website: http://ecocomplex.rutgers.edu or by contacting Dr. Serpil Guran, Director, EcoComplex, at guran@aesop.rutgers.edu or 609-499-3600 x4225.
Please submit required information listed in this form by March 20, 2015 to Dr. Serpil Guran at guran@aesop.rutgers.edu
